

Timpanogos High School, Disclosure Document
Calculus Lab, Mr. Jackson

Dear Student and Parents,

I am excited to be here as your teacher, and look forward to working with you through this school year. I am confident it will be a positive experience for each of us. Here are some guidelines and information to make it successful.

COURSE DESCRIPTION AND OUTLINE

This calculus lab class is designed to help make your experience in AP Calculus more successful and enjoyable. All students in this class must also be concurrently enrolled in either AB or BC Calculus. We meet every other day in between your regular calculus class which will allow you access to help from your peers and instructor on assignments and time to prepare for quizzes and tests. Daily activities will include group instruction and activities as well as individualized work. This lab/help class is not required for Advanced Placement Calculus but can greatly improve your experience and success in this AP course.

Expect daily in-class assignments, periodic quizzes, and individual or group projects related to your study of calculus. Much of our time each day will be devoted to your calculus homework assignment. You will be expected to set daily and longer term goals and report on your progress.

GRADING

Grades will be based on scores from:

- | | |
|------------------|-----|
| 1. Participation | 25% |
| 2. Goals | 25% |
| 3. Quizzes | 25% |
| 4. Projects/Labs | 25% |

My goal is for all students to be successful in this and future math courses. To achieve success the Timpanogos High School Math Department has set a minimum competence level of 70%.

A 93 - 100 %	B+ 87 - 89 %	C+ 77 - 79 %	F 69 % and below
A- 90 - 92 %	B 83 - 86 %	C 73 - 76 %	
	B- 80 - 82 %	C- 70 - 72 %	

Note: If, during the first three terms a student's percentage is 65 - 69, for one term only the failing grade will be replaced with a "D-" if a grade of "C" or better is earned in the following term.

You can assure success in this class by following the learning suggestions outlined in the PLAN you will receive in class. Outside help is available before (7:15-7:54 AM) or after school (2:15-3:15 PM) almost every day. Please check with me before you come. Ask for the help you need to succeed. In addition, our text has an excellent on-line web resource with worked out exercises from each assignment and sample tests. An access code for this resource is \$12 for the entire year but you are not required to purchase this resource. Grade reports will be posted periodically during the term in class and are available daily at the Powerschool web site (<http://205.118.65.5/public>). Your student login and password are available by calling THS Counseling at 223-3132.

ATTENDANCE AND TARDY POLICY

Your success in Calculus is directly tied to your attendance. Rule of thumb: don't be late, and don't be absent. Punctuality is important for your success in school and in life. Tardiness and absenteeism show a lack of respect and dedication. Based upon the Timpanogos High School Attendance Policy, missed work can only be made up for excused absences or tardies. In addition, no grade or credit for the class is awarded if there are unexcused or unexcused absences or tardies. See the THS Attendance Policy for details.

CLASSROOM BEHAVIOR AND DISCIPLINE

In the classroom it is my responsibility to teach and as a student I feel your responsibility is to learn. As such, I will not allow any student to stop me from teaching, nor any student to stop another from learning. Nor will I allow any student to engage in behavior that is not in his best interest or the best interest of others. Listed below are three classroom rules we must have to achieve our purposes here.

1. Follow directions the first time.
2. Talk when appropriate. Listen while another is speaking. When working on an assignment, if I can hear your voice, it's too loud.
3. No food or drink in class.

If you choose not to follow one of these rules the following consequences will occur.

- | | |
|------------------------------------|--|
| <i>1st time (name on board)</i> | <i>= warning</i> |
| <i>2nd time (check by name)</i> | <i>= stay after class 58 seconds.</i> |
| <i>3rd time (2 checks by name)</i> | <i>= the above and stay after school the next day 5 minutes.</i> |
| <i>4th time (3 checks by name)</i> | <i>= each of the above and a call to parents.</i> |
| <i>5th time (4 checks by name)</i> | <i>= each of the above and a visit with principal.</i> |

In addition, should a student's behavior be severe, he or she will be immediately removed from the classroom and dealt with by the principal. Such behavior might be willfully inflicting physical harm, destroying property, overtly refusing to do what told, or any behavior that stops the whole class from its duties.

Along with all these negative consequences a focus on positive behavior will be emphasized. In other words, a student will be rewarded for behavior that contributes to the success of our class. Anytime I may compliment you personally, send a positive note or call to your parents, or raise a score in the grade book.

As a teacher, I am very serious about our purpose here in the classroom. I expect you as a student to take this responsibility seriously as well.

Cell Phones, MP3's and Other Electronic Equipment

These are not allowed in the classroom. Their use distracts you and others from learning. If they are used during class they will be confiscated and delivered to the principal's office at a convenient time. The owner may pick it up from the principal's office.

CONCLUSION

Now, if you can still smile after reading all this, please do so and we'll have an enjoyable year together. Attached is an informational and signature form for both the student and parents to sign and return to class. If you have any questions or concerns about any of these policies, please contact me immediately (223-3120, ext 181, Jacks786@alpine.k12.ut.us).
