

School Improvement Team Minutes
October 20, 2009

Location: Main Office Conference Room

Attendance: Cathy K., Theron M., Jake F., Elena S., Richard C., Cecile T., DeeAnn B., Donnalee E., and John Shelton

Minutes:

1. With the goal of involving students in our mission and vision, Richard Collette and Cecile Thomas came to the meeting. Richard and his students will create T-Wolf TV moments to emphasize our mission and vision, which will be prepared next week. He will also create vinyl lettering for classrooms. He will create a sample for Theron to approve. Cecile and her students will create a graphic for classrooms.

We discussed what will benefit students to know. Mission? Vision? DRSLs? Will students get it all confused? After a discussion, we will focus this year on the mission: “A Community of One Striving for Excellence: To empower students to commit to life-long learning, exemplify character, and contribute to society.”

2. Diane expressed concern about our mission statement. The content is good. The wording is awkward. In the group, it was suggested that we revise the statement to The meeting ended before this was complete.
